

<b>Participant Consent to take part in [The effect of drowsiness and driving modes on hazard perception performance]</b>		If you agree to the statement please sign with your initials below
I confirm that I have read and understand the information sheet/letter dated [17.11.2024] version number [1] explaining the above research project and I have had the opportunity to ask questions about the project.		
I understand that my participation is voluntary and that I am free to withdraw at any time without giving any reason and without there being any negative consequences.		
In addition, should I not wish to answer any question or questions, I am free to decline.		
I understand members of the research team will have access to my identifiable responses.		
I understand that identifiable data collected about me as part of this research project may be linked with other data as described in the PIS.		
Where my data has been anonymised/pseudonymised I understand I will not be identified or identifiable in the reports or publications that result from the research.		
<b><u>Agreement for open data sharing:</u></b> I agree that the (de-identified) research data collected from me can be shared publicly and openly, as explained in the Participant Information Sheet.		
<b><u>Agreement for restricted data sharing:</u></b> I agree that the (de-identified) research data collected from me can be shared for future research and teaching, as explained in the Participant Information Sheet.		
I understand that other researchers may use my words (direct quotes) in publications, reports, web pages, and other research outputs, only if all direct identifiers (such as names, locations, birth dates and contact details) are removed and I cannot be identified.		
I understand that relevant sections of the data collected during the study, may be looked at by auditors from and on behalf of the University of Leeds.		
I agree to take part in the above research project.
